---

## EXECUTIVE SUMMARY

Applied Data Science Master's candidate with a strong foundation in Bachelors-level Statistics. Skilled in the data lifecycle, from gathering and sanitizing live datasets to developing predictive models and regressions. Proficient in R, SQL, Power BI, and Tableau, with a natural ability to transform raw data into clear, actionable insights. A detail-oriented collaborator focused on applying statistical techniques to solve practical problems in business and research with accuracy.

---

## EDUCATION

**SRM Ramapuram** | *MSc Applied Data Science* | Expected 2027

- **Current Coursework:** Data Visualization, Big Data Analytics, NLP, and SQL/NoSQL Databases.
- **Programming:** Developing practical applications using R and Python for data analysis.
- **CGPA:** 9.33 / 10

**DDGDVC** | *BSc Statistics* | 2025

- **Foundation:** Studied core **Statistical Theory**, including **Probability**, **OR** and **Hypothesis Testing**.
  - **CGPA:** 8.01/10
- 

## EXPERIENCE

**Stats Perform** | *Data Collection Analyst*

- **Achieved 99%+ accuracy** in high-pressure environments by executing rigorous quality control and real-time verification of match event codes.
  - **Optimized reporting efficiency** and database integrity by streamlining kickoff synchronization and validating time-sensitive data for concurrent global matches.
- 

## RESEARCH & PROJECTS

**Stock Redistribution via Bayesian Forecasting & MIP Optimization** | *Lead Researcher*

- **Developed** a Bayesian demand forecasting model and Mixed-Integer Programming (MIP) framework to **optimize** inventory redistribution across networks. **Engineered** a predictive extension using multivariate correlation analysis to **reduce** stockouts and overstocking by accounting for demand uncertainty.

**Social Media Impact Analysis** | *Lead Analyst*

- **Designed** a 15-point survey instrument to **collect and analyze** primary data on social media impact, **synthesizing** respondent trends into a comprehensive statistical report.
- 

## SKILLS & CERTIFICATIONS

- **Technical:** R, SQL, Tableau, Power BI, Excel, Canva, Regression.
- **Certifications:** Descriptive Statistics with R Software, Data Analytics With Power BI, Data Analytics with Tableau, Advanced Microsoft Excel
